

Maxiglass

Bottle coolers, the new generation...

The Maxiglass cabinets are part of a range of highly efficient maximum display cooling cabinets. Designed to meet the needs of today's professional bars where selling premium profit lines at the perfect temperature is crucial to the success of the bar.

Available from 150 to 315 L volume, swing or slide doors, fully branded to customer specification. Standard features: electronic thermostat, door locks, internal illumination, automatic defrost, exchangeable magnetic gaskets, and insulation: 30 mm polystyrene. Finish exterior: anthracite skin plate, finish interior: silver coloured skin plate.

Remark: Undercounters only need ventilation at the lower front side. This allows the cabinets to be built in completely without leaving any space at the sides and top and a minimum of space at the back side.

- Option: All types with swing doors, front or exterior in stainless steel (AISI 430)

- Option: All types, finish in solid swing doors, anthracite (in lieu of glass doors)

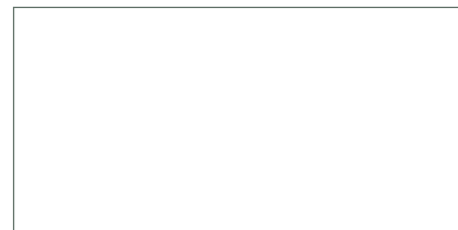

- Option: All types, finish in solid swing doors, stainless steel (AISI 430) (in lieu of glass doors)

- Option: All types, finish in solid swing doors, anthracite and stainless steel front (AISI 430) (in lieu of glass doors)

- Option: Wine shelves
